LIGHT FILTERING

Light filtering fabrics offer a unique combination of privacy and ambiance. Allows light to gently filter through and provides privacy. Images and shapes may be seen through these shades, but details are not visible. Dark fabric colors provide moderate light control, while light colors provide lower light control.

Features:

Transparency	Light Filtering
Oeko Tex Standard	Yes
Pattern	Solid
Composition	100% Polyester
Coating	Acrylic
Thickness	0.2 mm
Flame Retardant	No
Cleaning	Spot Clean Only

PRODUCT CODE: #F301

LIGHT GRAY

PRODUCT CODE: #F305

BLACK

CLASSIC BLACKOUT

Our signature blackout fabric combines a soft-brushed texture with a triple-coated white backing that prohibits lights from shining through and provides maximum privacy. For optimal light and glare control, outside mount is recommended, or you may add a secondary soft window treatment (drapery or curtain) to hide the light gap on an inside mount.

Features:

Transparency	Blackout
Oeko Tex Standard	Yes
Pattern	Solid
Composition	100% Polyester
Coating	Acrylic
Thickness	0.4 mm
Flame Retardant	No
Openness Factor	0%
Cleaning	Spot Clean Only

1. FABRIC OPTIONS: REFLECTIVE SCREEN

NEW REFLECTIVE ECO SCREEN

Our innovative reflective eco screen fabric is produced by applying an ultra-fine layer of aluminum to the fabric side that faces the window. The open-weave allows you to maximize natural light while providing 95% UV Protection. Note: lighted interiors allow inward visibility. If complete privacy is desired, a blackout fabric is necessary.

Features:

Transparency	Screen
Oeko Tex Standard	Yes
Pattern	Solid
Composition	100% Polyester
Coating	Metallicized Acrylic
Thickness	0.3 mm
Flame Retardant	No
Openness	5%
Cleaning	Spot Clean Only

2. OPERATING SYSTEMS

PRODUCT CODE: #OSA

CORDLESS

*includes clear handle

- **No Charge**
- Sleek look with no cords or chains
- Safest alternative for homes with children or pets
- Shade raises and lowers smoothly and easily due to built-in brake control
- Innovative spring allows for seamless positioning - simply raise and lower the shade to your desired position with a slight pull
- All cordless roller shades include a warranty period of 1 year

PRODUCT CODE: #OSM

MOTORIZED

- **For surcharge, see price chart**
- Allows for easy operation of hard-to-reach or large window coverings
- Cordless motorization requires no costly electrical hard-wiring
- Operate through 500 cycles on a single charge (6+ months with normal use)
- Easily charge with USB-C charger
- Adjustable upper, lower and middle stopping position so you can control your roller shades with the push of a button
- Motor, Remote, and Wi-Fi Bridge include a warranty period of 3 year
- Additional accessories available:
 - **5-channel remote** allows you to coordinate operation of multiple shades with the touch of a button.
 - **USB Wi-Fi Bridge** allows you to connect and control your roller shades via Wi-Fi and other popular smart home integrations or voice assistants, such as Amazon Alexa, Google Assistant, IFTTT, and SmartThings, etc, via cloud API.

HEADRAIL MOUNT

- **No Charge**
- Inside or Outside Mount
- White, Aluminum Headrail allows for mounting inside or outside of the window frame
- Ultra low-profile design minimizes light gaps
- Includes clip-on brackets for installing on almost any surface

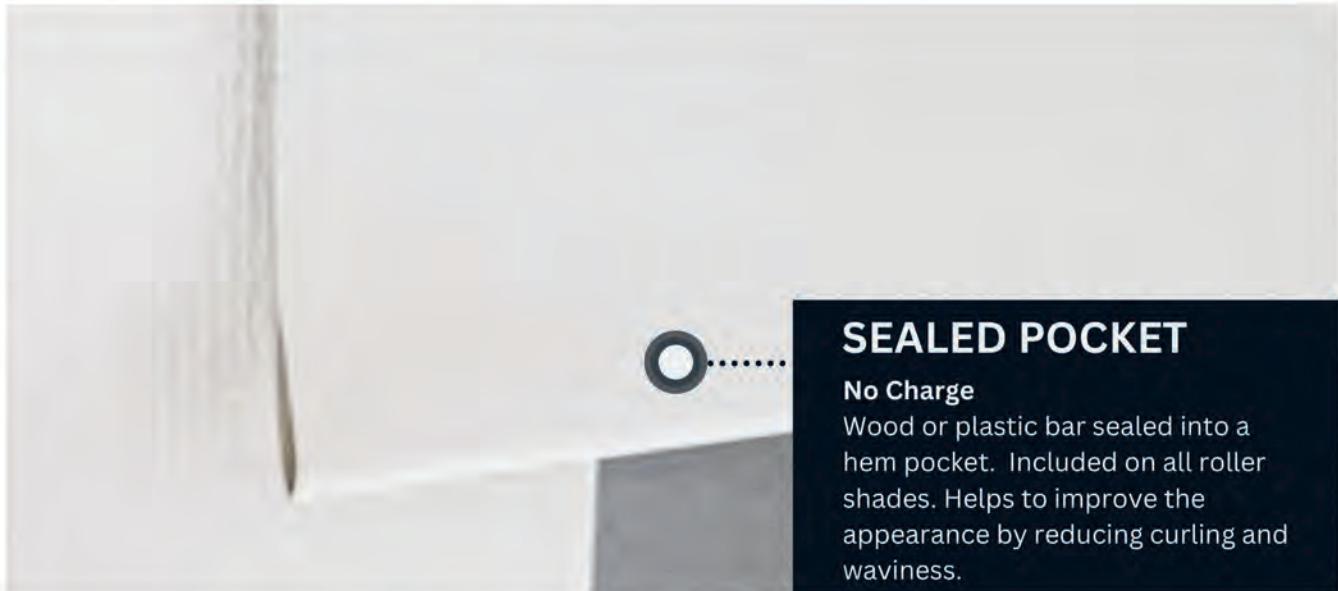

CURVED CASSETTE MOUNT

- **For surcharge, see price chart**
- Inside or Outside Mount
- *Not available with extended length shades*
- White, Aluminum, Curved Cassette completely conceals bracketing and protects the shade from dust or damage
- Fabric wrapping available for as a surcharge option, coordinates with shade fabric
- Includes spring-loaded brackets for a nearly flush mount

FINISHING TOUCHES

SEALED POCKET

No Charge

Wood or plastic bar sealed into a hem pocket. Included on all roller shades. Helps to improve the appearance by reducing curling and waviness.

HANDLE

No Charge

Clear, plastic handle. Included with all cordless spring operation.

PRODUCT CODE: #RBB23

ROUND BOTTOM BAR

For surcharge, see price chart

Finish the look with our sleek, round bottom bar. Available in white, black, and anodized aluminum. Includes color coordinating handle.

Have questions? Call us: (478) 319 2771

LIGHT GAPS

A light gap will be present on inside mounted shades. An outside mount with overlap is recommended to eliminate light gap.

FABRIC RECOMMENDATIONS + DISCLAIMERS

Please order all shades at the same time to ensure color consistency and minimize dye lot variation. Due to the nature of the weaving process, some imperfection in the weave is normal. Fabric appearance can vary based on changing lighting conditions.

Fabrics Roller Shades with lengths between 71"-100" will be turned width for height (referred to as railroaded) and may curl along the edge. With extremely wide or railroaded shades, a V shape may appear in the center of the panel . This is expected behavior and occurs due to the weight of the fabric. This is not a defect in the product.

FABRIC CERTIFICATIONS

All of the fabrics used for our roller shades are OEKO-TEX®-certified. The OEKO-TEX® certification implicates that our fabrics do not contain chemicals that are harmful to health and are, therefore, products with high human ecological requirements.

All of the fabrics used for our roller shades are certified by Global Recycled Standards. The approval criteria includes environmental processing requirements, chemical use, and various social responsibilities. This provides assurance that the production doesn't harm people or the environment.

LIGHT CONTROL AND PRIVACY

Light Filtering: Allows light to gently filter through and provides privacy. Images and shapes may be seen through these shades, but details are not visible. Deep fabric colors provide moderate light control, while light colors provide lower light control. (Privacy Level: Moderate)

Blackout: Prohibits light from shining through and provides maximum privacy. Prevents shadows and silhouettes from showing through the fabric. All fabric colors provide maximum light control. (Privacy Level: Complete)

Reflective Eco Screen: Filters and diffuses light while maintaining an outward view. Does not provide nighttime privacy—lighted interiors allow inward visibility . If complete privacy is desired, consider adding an additional window treatment or choosing a blackout fabric. (Privacy Level: Low)

CLEANING AND CARE INFORMATION

Roller shade fabrics are virtually maintenance free. If the shade is dusty, simply vacuum over it using an upholstery attachment. A dusting cloth can also be used to gently remove dust.
